Schedule

8:30–9:00 am

Registration – Sign-in required for CEU verification.
Coffee and pastry served.

9:00 - 11:30 am

The Productivity Zone

The responsibilities, activities, and stresses of life leave people feeling physically depleted, emotionally drained, and mentally distracted. In this presentation, Penny shares the 10 Productivity Drivers to shift those emotions, avoid procrastination and perfectionism, and get in the Zone. The Productivity Zone is where efficiency and productivity meet. The Drivers will help you to think and act more strategically – that makes you work smarter. You will walk away with Assess yourself in the 10 core drivers, identify the gaps in your performance, create an action plan to close the biggest gap.

About the Speaker: Penny Zenker is a productivity expert, strategic business coach, international speaker and trainer, radio personality and author. She is creator of the "P10: Productivity Accelerator Program," a time and energy management system that teaches people about the 10 core drivers of productivity and the essential roles they play in success and fulfillment. For the first time in her career, after coaching several years for Tony Robbins clients, she is making the same tips and techniques that she uses with some of the most successful CEOs and Entrepreneurs
